Echo360 for Instructors
How to obtain a Public URL for your course recordings

*Please note, only the primary instructor may generate public URLs.*
*Public views will not be reflected in course analytics*

1) Login to Echo360 via Canvas or https://echo360.org.
   Select “Library” at the top of your dashboard.

2) Find your recording in your library. A pop-up window in the top-right corner should appear.
   Click it and select “View”

3) You should see a preview of your recording along with three tabs just below. Select the “Sharing” tab, then hit the blue “Add Public Link” button.
Echo360 for Instructors

Please note, public URL views will not be reflected in course analytics

4) Disable authentication by clicking the “Authenticate” button such that there is no check-mark. Then, click the URL link in the other yellow box. It will be automatically copied to your clipboard. From here, you may post the link wherever needed.

*Pro Tip* - If you want to start your recording from a point that is not the beginning, you can set the start time in the orange box.
