# **IT Briefing**

November 20, 2014

North Decatur Building

4<sup>th</sup> Floor Auditorium

# IT Briefing Agenda

- Security Update
- LDA Migration Update
- PeopleSoft Financials Update
- Office 365 Update
- Emergency Notification
- Derek Spransy
- Anne Marie Alexander
- Tom Vincent
- Jay Flanagan
- Jay Flanagan

**Derek Spransy**

Sr Information Security Specialist, Information Security

# **IT Security Update**

# MIR Sweeps

- Enterprise wide MIR sweeps began on Tuesday, 11/18
- They are as performance friendly as possible
- Let us know if you see any problems

# Patching

- General increase in the number of highly critical vulnerabilities being disclosed or discovered
- The time from a patch being released until an exploit is developed is dropping to days, sometimes hours
- Being able to patch quickly and effectively across all of your managed devices is no longer a “nice to have”
- If you don’t have a patching solution, look into leveraging LITS’ SCCM implementation as a place to start

# Security Update

Questions

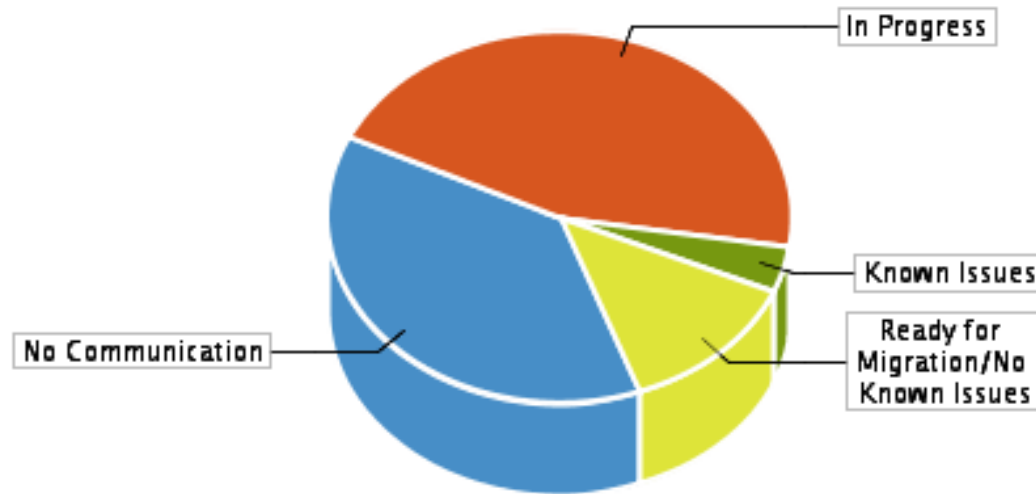

**Anne Marie Alexander**

Sr. Manager, Identity and Access Manager,  
Enterprise Services

# **LDS Migration Update**

# Progress to date

- No Communication (29 - 38%)
- In Progress (35 - 45%)
- Known Issues (3 - 4%)
- Ready for Migration/No Known Issues (10 - 13%)

# Due Date

**December 15, 2014**

# LDS Migration Update

Questions

**Tom Vincent**

Manager, PeopleSoft Financials, Enterprise  
Applications

# PeopleSoft Financials Upgrade

# PeopleSoft Financials Upgrade

## Compass Background

- Compass is Emory's PeopleSoft Financials system
- Implemented in September, 2009 on version 9.0
- Services both the University and Healthcare business units
- Over 13,000 users over the past year
- Performed a tools upgrade (to PeopleTools 8.53.9) and infrastructure upgrade in April, 2014
- Current database is on Oracle 11g and uses about 1.7TB

# PeopleSoft Financials Upgrade

## Why we need to upgrade

- Retain Premier support from Oracle
- Introduce new/updated functionality and potentially reduce customizations
- Revisit/revise decisions made during the implementation
  - SmartKey
  - Storing Attachments in the DB
  - Remove most third-party vendor solutions
- Evaluate opportunities discovered during the recent listening tour
- Re-evaluate current practices in light of known best practices

# PeopleSoft Financials Upgrade

## Upgrade Plan

- Upgrading to PeopleSoft Financials 9.2
- Upgrading to PeopleTools 8.54.x
- Compass is frozen – no more enhancements
- Performed fit/gap sessions to help determine the scope of the project
- Developers are currently retro-fitting mods being kept
- All Business Cases for modifications/enhancements are due December 12<sup>th</sup>
- Upgrade tentatively planned for Summer of 2016
- Much more information to come at future briefings as many systems are impacted by this upgrade

# PeopleSoft Financials Upgrade

Questions

**Jay Flanagan**

Manager, Messaging Team, Infrastructure

# **Office 365 Update**

# O365 Moves Coming Soon

- Center for Ethics
- Physics
- Reviewing for other groups that may have been missed

# Additional Updates
