Leawo Blu-ray Player Basics

Starting a movie (after disc drive has been connected and disc inserted)

1. Open the Leawo Blu-ray Player application.
2. Click Open File or the name of the disc in the application window.
3. Verify the name of the disc under the Devices section is selected.
4. Click Open.
5. After a short wait, playback will begin.

Disabling subtitles

Subtitles are enabled by default. In order to disable subtitles, complete the following steps:

1. Right click in the application window.
2. Select Subtitles...
3. Click the green circle to the right of Enable subtitles.
4. Click the red circle to the left of Subtitles-Settings to close the settings menu.

Ejecting a disc

The physical eject button on the disc drive will only work when no disc is inserted. Once a disc has begun playing, either close the application and eject normally or complete the following steps:

1. Right click in the Leawo Blu-ray Player application.
2. Hover over Eject Disk.
3. Click on the name of the disc that appears.
